

PUPPET PATTERNS

Itsy Bitsy Spider Stick Puppets

Directions: Print the Itsy Bitsy Spider patterns. Color, cut them out, laminate, and glue them to straws or to tongue depressors. **For a Cup Puppet,** glue the patterns to straws. Make three small holes in the bottom of a Styrofoam cup. Push the straws through the holes so the pattern pieces can be pulled down into the cup. Move the pieces up and down with the words of the song.
